## MC-6

Alkaline Degreaser and Detergent

**Description:** MC-6 is a concentrated moderately foaming alkaline detergent developed for general cleaning and light degreasing. It is an exceptional formulation for railroad engine degreasing. It is formulated with alkaline builders, emulsifying agents, and biodegradable surfactants.

**Application:** MC-6 is highly effective on removing road film, bugs, oils, grease, and soot. It can be applied using an up or down stream injection systems. It can also be diluted and applied with a low pressure misting system. Recommended Dilutions: General high pressure cleaning 1:20, general degreasing 1:10, heavy degreasing 5:1.
