TRU-SHINE

Polished Aluminum Cleaner

Description: TRU-SHINE is a new low ph detergent solution used to clean aluminum surfaces without discoloring the factory finish. It will remove dirt, oils, and road salts. Continued applications of TRU-SHINE on aluminum surfaces will help renew faded, dirty and dulled aluminum surfaces. It will help reduce the visual effects of salt spot blemishes. TRU-SHINE is a light acid liquid with a mild scent.

Application: TRU-SHINE may be applied through a pressure washer at a dilution rate of 20 parts water to 1 part TRU-SHINE. It can be diluted 10:1 and applied using a pump up hand help sprayer. For best results it should be applied after being diluted 10:1 using a brush.

Typical Properties:

Specific Gravity	1.104
PH (as is)	1.0
Flash Point	NA
Odor	slight acid odor
Appearance	clear liquid

Storage & Handling:
