PRODUCT NAME

MC-1 ACIDIC CLEANING COMPOUND

DESCRIPTION:

MC-1 is an acid cleaner formulated with hydrofluoric acid and biodegradable surfactants. MC-1 is a blue liquid with an acidic odor.

APPLICATION:

MC-1 is used as the first step in the MCS 2-step truck washing system. It used in conjunction with any of the following MCS alkaline cleaners: MC-2, MC-2m, MC-6, MC-9, and MC-24. MC-1 prepares the surface for complete road film and diesel soot removal without brushing. MC-1 is superior in cleaning the exterior of stainless steel tankers. It cleans and removes the tarnish leaving the tanker looking new. MC-1 is formulated to be used with cold water and applied at a dilution rate of 20:1. It should be applied through either an upstream or downstream chemical injection system. Caution: This product is not to be used on polished or brushed aluminum surfaces. If used on a painted surface, apply MC-1 to an inconspicuous area to insure no discoloration occurs.

NOTE: This product should not be used on highly polished aluminum surfaces.

TYPICAL PROPERTIES:

Specific Gravity	1.02
PH (as is)	< 1.5
Flash Point	NA
Odor	acidic
Appearance	Blue liquid

STORAGE AND HANDLING:

This product should be stored in a cool dry area with container tightly closed. Normal safety precautions (i.e. gloves faceshield) should be worn when handling this product. Refer to MSDS for more detailed safety information. This product is available in 55 gal rums.
